

ATV Rodeo

The first annual ATV Rodeo at the Springfield Twp Volunteer Hose Company Community Fair in Mill Run was a great time for all of the racers and for our club volunteers as well. Mark Lynch did a great job organizing the event and laying out a course that was simple enough for the young riders, but challenging for the seasoned vets.

Good Press

The ATV riding community is aware that riding areas open to ATVs are harder to find. This ATV Rodeo was a great way to get to the enthusiasts and tell them about safe, legal riding areas that are close to home. Brochures were handed out from DCNR, ASI, and even free CD's on the ATV safety course. Many upcoming non-profitable club event flyers were available for rodeo riders to take home.

"I think it's great that our club was able to reach the many riders that came to the event. I thought we hit all the age groups from 6 to 55 yrs old and everyone seemed to enjoy the event." Mark Lynch
